Basic Information

- Place of Origin: China
- Brand Name: Virette

Product Specification

- Tank Thickness: 14mm
- Pump: Self-priming Pump
- Tank Accessories: Manhole Cover, Emergency Valve, Level Gauge, Discharge Valve
- Tank Length: 11600mm
- Material: Carbon Steel
- Tank Type: Horizontal
- Tank Diameter: 2700mm
- Color: Customized
- Highlight: containerized fuel station 50m3,
2700mm dia containerized fuel station,
containerized container fuel station

Product Description

Customized 2700mm Diameter Containerized Fuel Station with 14mm Tank and Self Priming Pump

Product Description:

The Container Fuel Station is a horizontal tank container that measures 11600mm in length and has a cuboid shape. The tank is made of high-quality steel and is designed to withstand harsh weather conditions and rough handling during transportation. The tank is equipped with various tank accessories such as a manhole cover, emergency valve, level gauge, and discharge valve, which ensure safe and secure handling of fuel.

The Container Fuel Station has a flow rate of 50m³/h, which means it can refuel vehicles and equipment quickly and efficiently. The tank is designed to store diesel, gasoline, and other types of fuel, making it a versatile solution for a wide range of industries.

The Container Fuel Station is a container gas station that can be easily transported to any location using a truck or a crane. The tank is mounted on a steel frame that makes it easy to handle and move around. The tank is also designed to be stackable, which means multiple tanks can be transported at the same time, reducing transportation costs and increasing efficiency.

The Container Fuel Station is a cost-effective and environmentally friendly solution for industries that require a reliable and efficient way to refuel vehicles and equipment in remote locations. The tank is designed to meet all safety and environmental regulations, ensuring that fuel is stored and transported safely and securely.

In conclusion, the Container Fuel Station is a perfect solution for industries that require a mobile, reliable, and efficient way to refuel vehicles and equipment in remote locations. With its high-quality steel construction, versatile tank accessories, and efficient flow rate, the Container Fuel Station is the ideal choice for any industry looking for a containerized refuel facility.

Features:

Product Name: Container Fuel Station

Tank Accessories:

Manhole Cover

Emergency Valve

Level Gauge

Discharge Valve

Capacity: 50m³

Material: Carbon Steel

Color: Customized

Tank Length: 11600mm

Other names for this product include:

Container Gas Station

Fuel Station on Containerized Base

Mobile Oil Supply Station

Technical Parameters:

| Tank Accessories: | Manhole Cover, Emergency Valve, Level Gauge, Discharge Valve |
| Capacity: | 50m ³ |
| Tank Type: | Horizontal |
| Material: | Carbon Steel |
| Tank Shape: | Cuboid |
| Tank Diameter: | 2700mm |
| Tank Thickness: | 14mm |
| Color: | Customized |
| Tank Surface Treatment: | Sandblasting, Painting |

Applications:

The Virette Container Fuel Station is a Tank Containerized Refuel Facility that is highly portable and can be moved from one location to another with ease. It has been designed to meet the needs of various industries including agriculture, mining, construction, and transportation. The product is an ideal solution for companies that operate in remote areas where access to fuel is limited.

The Tank Type of the Virette Container Fuel Station is Horizontal and the Tank Shape is Cuboid. These features make it easy to transport and store the product. The Tank Length of the product is 11600mm which provides ample storage space for fuel.

The Virette Container Fuel Station is a Mobile Oil Supply Station that can be used in a variety of applications. It can be used to refuel vehicles, generators, and other equipment. The product is also suitable for use in emergency situations such as natural disasters where access to fuel is limited.

The Virette Container Fuel Station is perfect for companies that need a fuel supply that is reliable, efficient, and easy to transport. It is an

ideal solution for companies that operate in remote areas where access to fuel is limited. The product is also suitable for companies that require a mobile fuel supply that can be moved from one location to another with ease.

Customization:

Customize your Virette Container Fuel Station - the ultimate Mobile Oil Supply Station - with our product customization services! Originating from China, our skid-mounted fuel station is designed for easy transportation and quick installation, making it a Portable Fuel Supply Station perfect for any location.

Customize your fuel station with the following attributes:

Brand Name: Virette

Place of Origin: China

Tank Accessories: Manhole Cover, Emergency Valve, Level Gauge, Discharge Valve

Capacity: 50m3

Tank Shape: Cuboid

Pump: Self-priming Pump

Tank Diameter: 2700mm

With our product customization services, you can create a fuel station that meets your specific needs and requirements.
